ALT OPTIONS

POTATO PRINTING - If you'd like to experiment with Potato Printing in addition (or instead of SpeedyCarve) that is definitely a possibility! Make sure you have a russet potato handy & some paper towels (along with the other supplies)

PRINT ON PAPER - If you'd rather just print & experiment with pattern on paper - simply replace the ink & sponge with your favorite stamp pad & have fun filling up your sketchbook!

A promotional graphic for the workshop. On the left, the 'Windowsill Workshops' logo features a yellow bird icon and the text 'with Margo Tantau & Friends'. A blue arrow points from the logo to a circular photo of a woman in a denim jacket standing in a workshop. To the right of the photo, it says 'with Bethany Andrews-Nichols' and 'BEENANZA DESIGN'. At the bottom left, it repeats 'Block-Print Your Own' and 'BIG GIRL PANTS!'. At the bottom right is the 'MARCO TANTAU' logo. A yellow flower icon is on the far right.
